

PAGES Tools for Management and Performance Monitoring

Pamela Loprest, Urban Institute

Nathan Sick, Urban Institute

Presentation at the HPOG Grants Annual Conference
February 17, 2016

Ways to Use PAGES Data

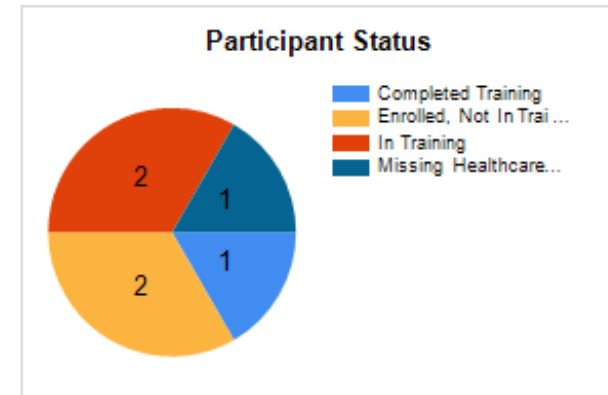

- Questions National Evaluation Team will address
- Questions PAGES Grantees can address
 - Using data to understand how my grant is performing
 - Using data for program management
 - Using data to recognize and celebrate program milestones
 - Monitoring issues of data quality

Grant Performance

- What is the status of my participants?
- What services are being delivered by my grant?
 - By Training Type
 - By Training Vendor
- What outcomes are participants achieving?
 - By Training Type
 - By Employment Sector
 - By Employer
- How is my grant performing relative to projections?
- Tracking progress toward/reaching program milestones

Status of Participants in PPR

Participant Status	Current	% of Cumulative Enrollment
Enrolled, has not Started Healthcare Training:	<u>2</u>	33.33%
In Healthcare Training:	<u>2</u>	33.33%
Missing Healthcare Training Progress Data:	<u>1</u>	16.67%
Completed Most Recent Healthcare Training:	<u>1</u>	16.67%
Not Completed Most Recent Healthcare Training:	<u>0</u>	0.00%

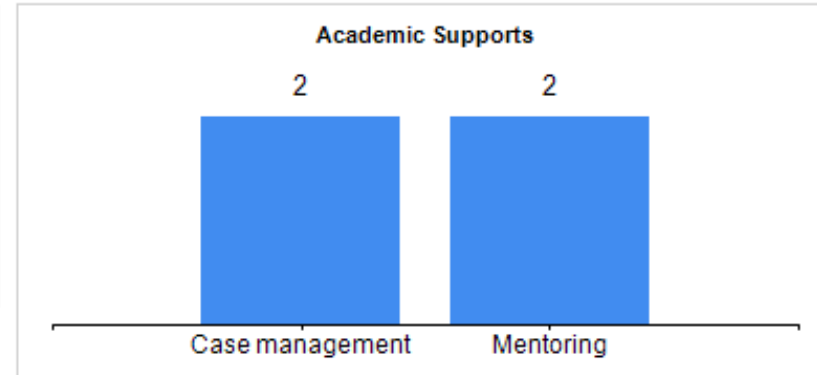

- The PPR allows you to view the status of all participants in your program.
- You can run this at any time

Trainings and Services Delivered in PPR

Academic Supports

Activity	Service Narrative	Participation FY 2016	Cumulative Participation	Explanation
Case management	Sample Academic Supports CM	1	2	<u>None</u>
Mentoring	Sample Mentoring	1	2	<u>None</u>

- The PPR allows you to view the number of each training and service obtained by participants.
- You can run this at any time, and it includes every type of training and service category found in PAGES.

Participant Outcomes relative to Projections

	Actual	Projected	% of Projected	Explanation of Variance
FY 2016 First-time Employed in Healthcare Occupation:	4	40	10%	<u>None</u>
Cumulative Employment Measures				
Cumulative Employed in Healthcare Occupation:	4	800	1%	<u>None</u>

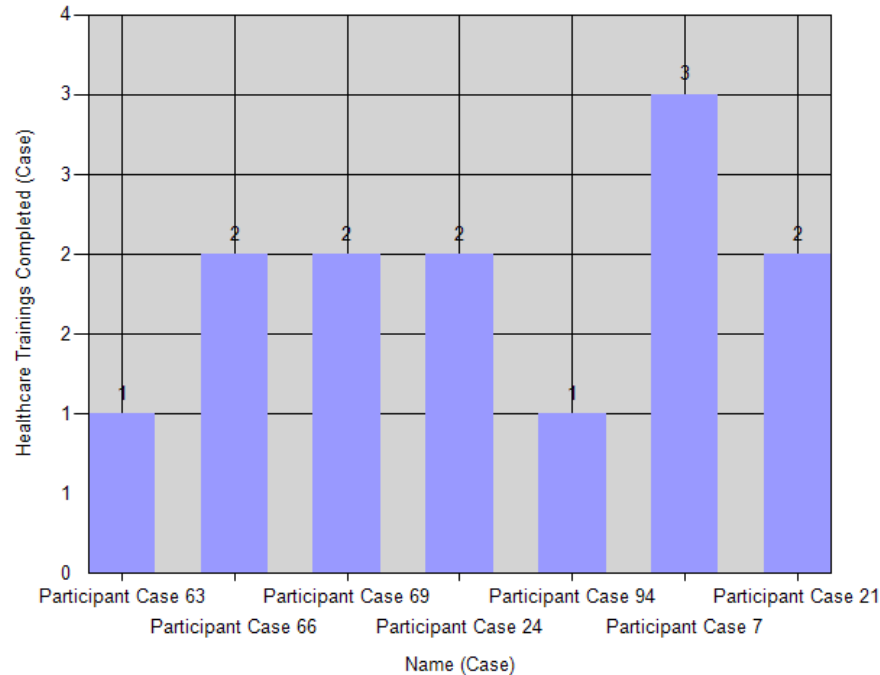

- The PPR allows you to view employment and training outcomes relative to the numbers that were projected.
- This will allow you to track program performance milestones at any time, and compare them to your goals and projections.

Participant Outcomes that can be Tracked In PAGES

Here is a partial list of outcomes:

- Basic Skills Training completed
- Healthcare Occupational Training completed
- Received a certification
- Dropped out of Training without completing
- Completed at least half of a “milestone” training (> 12 weeks)
- Completed more than one healthcare training
- Completed training within predicted timeframe
- Completed entry-level and mid-level training
- Employed in healthcare
- Employed after completing training

Diving deeper into the Outcomes Data

- PAGES allows you to explore participant data – including outcomes, such as participants who are employed after training, and how many trainings they completed.

Grant Performance by Type of Participant

✦ All TANF Participant Cases ▾

Search for records

✓	Name ↑	Participant	Household - TANF (B...	Individual - TANF (Ba...	Case	🔽	🔄
	Participant Case 144	Participant: 144	Not Reported	Yes	Open		
	Participant Case 148	Participant: 148		Yes	Open		
	Participant Case 152	Participant: 152	Yes	Not Reported	Open		
	Participant Case 162	Participant: 162		Yes	Open		
	Participant Case 189	Participant: 189	Yes	Yes	Open		
	Participant Case 191	Participant: 191	Yes	Yes	Open		
	Participant Case 213	Participant: 213	Yes	Yes	Open		
	Participant Case 214	Participant: 214	Yes	Yes	Open		
	Participant Case 215	Participant: 215	Yes	Yes	Open		
	Participant Case 220	Participant: 220	Yes	Yes	Open		
	Participant Case 225	Participant: 225	Yes	Yes	Open		
	Participant Case 226	Participant: 226	Yes	Yes	Open		
	Participant Case 23	Participant: 23	Yes		Open		
	Participant Case 65	Participant: 65		Yes	Open		
	Participant Case 66	Participant: 66		Yes	Open		
	Participant Case 67	Participant: 67		Yes	Open		
	Participant Case 68	Participant: 68		Yes	Open		
	Participant Case 69	Participant: 69		Yes	Open		

Participant by Employments after Intake ▾

- For example, explore participant trainings and employments by TANF participants only, in order to see how that group of participants is performing.

Using Data for Program Management

- How do outcomes differ by:
 - Sites in my grant? (Running PPR by Site)
 - Case managers?
 - Vendors?
- List cases with certain conditions:
 - missing contact information or missing intake information
 - past projected completion date
 - Finished training but without employment

Grant Performance by Case Manager

Healthcare Employment Rates by Case Man... ▾

- Visualize performance measures by Case Manager, or by Grantee Site (if your organization has multiple sites).

More PAGES Training/Info Coming Soon:

Report Creation:

- Pre-programmed reports in PAGES: Using views and dashboards
- Visualizing data in PAGES: making charts and graphs
- Going Deeper into the Data: using PAGES Advanced Find for report making

Tracking Data Quality:

- Participants with missing data
- Participants past projected completion dates

Program Management

- Tools in PAGES to assist program management

Your Questions

What types of trainings would be useful to you and your staff?

What types of reporting would you like to be able to do?
