

Worksheet—Questions/Topics to Consider for Two Generation Strategies

Introductory thoughts: How can HPOG move toward serving the whole family? This could possibly consist of addressing financial stability, parental involvement, quality early child care and elementary education. How do we define family success and capitalize on the impact of children watching their parents successfully complete their education and embark on their occupations? How can partnerships be crafted to bring together programs to address the whole family?

Potential/ Example Action Steps

Identify a main goal related to serving parents and children together

Identify stakeholders and champions in local agency/HPOG partnership

Hold focus groups with staff/partners to better understand how they currently address child, parent, family issues

Identify points in existing HPOG program where we could insert parent or family focused activities that would be relatively easy to implement

Learn about state policy environment for childcare subsidies for parents in training programs/for low-income workers

Identify potential early child care and education providers (their costs, hours, transportation options)

Identify outcomes we want to track
