What is Title V?

The nation's longest standing public health legislation focused solely on improving the health of all mothers and children, including adolescents

AMCHP

Appropriates funds to states to:

- Ensure access to **quality health services**
- Promote the health of children by providing **preventive and primary care services**
- Improve **transition** from pediatric to adult health care

Challenging Title V to Respond to AYAH

Adolescence and young adulthood is a critical period of development for everyone

- Assessing AND addressing issues that affect the well-being of our young people
- Coordination of Systems
- Can bring Positive Youth Development (PYD) to life
- Provide youth and young adults the chance to lead

Title V MCH Services Block Grants

Every 5 years, states conduct a needs assessment to prioritize MCH needs

2020

Each year, states submit a block grant application outlining their strategic priorities for the year

AMCHP

With each block grant application, states select key measures to guide their work in each of the five population domains:
Women/Maternal Health, Infant Health, Child Health, **Adolescent Health**, & Children and Youth with Special Health Care Needs (CYSHCN)
